

Getting Connected to the PoliteMail API Section

Last Modified on 08/02/2022 12:56 pm EDT

Note that the ODATA functionality also enables you to connect to PoliteMail data using Excel PowerView or PowerBI.

Using your PoliteMail client create a service account go to:

- PoliteMail ->Settings ->Users
Note: If you do not have access to create a PoliteMail user ask your PoliteMail admin.
 - To connect to your PoliteMail server via ODATA use:
[https:// \(Insert PoliteMail Server Name\) /ssv3/odata](https://(Insert PoliteMail Server Name)/ssv3/odata)
 - Service metadata can be viewed at:
[https:// \(Insert PoliteMail Server Name\) /ssv3/odata/\\$metadata](https://(Insert PoliteMail Server Name)/ssv3/odata/$metadata)
-
