Are there any limitations to types of mailing lists you can send to with PM365 or PoliteMail online?

Last Modified on 07/07/2025 4:26 pm EDT

It will depend on how your organization's mailing lists are configured, but generally, you will not have access to your Exchange mailing lists when using PoliteMail online. However, you **will** have access to those if you use PoliteMail365.

Distribution list optimization will be discussed during your scope call.
