Can I compare more than two messages?

Last Modified on 04/14/2025 10:31 am EDT

Applies To: ■ **PoliteMail Desktop** ■ **PoliteMail Online** ☐ PoliteMail M365

Version: ☐ 4.9 ☐ 5.0 ■ **5.05+**

Your browser does not support HTML5 video.

With version 5.05 and higher, senders can now compare multiple Metrics Reports together in a side-by-side comparison.

Using Multi-Compare

- When viewing Messages or Campaigns in the data grid, when more than two rows are selected, the 'Compare' button will change to 'Multi-Compare'.
- Message properties are in each row and each campaign/message is in the columns.
- Clicking a row header will sort the messages based on that property. Columns can also be resized or rearranged.
- Admins can set a limit on the number of items that can be selected at **Account > Settings > User Preferences > Reporting**.

Select two reports to compare to one another, or select one report and benchmark to compare the report to the benchmark of your choice.
