## PoliteMail Features by Version

Category	Feature	Description	Version
<b>System and Security</b>	Single Sign-On	Gain automatic PoliteMail user account management based on your company's own Office365 identity and active directory security groups.	4.91
	Microsoft Graph Support	PoliteMail utilizes <a href="#">Microsoft Graph</a> , configured to read-only least privilege principals to get distribution list membership, working hours and time zone location data. This data is used for replication of email broadcasts and scheduling email delivery to recipients during their working hours by time zone	4.94
	SAML2 with Okta	SAML2 Support with Okta	4.957
	Webview2	Webview2 is supported with PoliteMail	4.958
	Unified Interface	New modern <a href="#">Office interface</a> for both desktop and online.	5.0
	OAuth support	OAuth is supported for secure Smart Attachments and Images.	5.05
	<a href="#">Calendar View</a>	A Calendar View of all Scheduled Sends, and allows for the "penciling in" of a time slot for a potential future Scheduled Send.	5.2
<b>Preferences</b>	Override Word Count	Manually <a href="#">override the word count</a> for messages composed in multiple languages for more accurate metrics	4.91
	Send Progress Notifications	Notifies a user on the <a href="#">progress of tracked sends</a>	4.951
	Shared Mailbox Scan	Automatically scan for any <a href="#">shared mailboxes</a> in Outlook and add them to preferences for capturing replies	4.96

Category	Feature	Description	Version
	Allowed FROM address required	If the company requires approved senders for emails, PoliteMail Admins can enter and <a href="#">approve the sending address</a> .	5.0
	Delete Preflight Messages	Automatically delete <a href="#">preflight test messages</a> after a predetermined time.	5.0
	Global and locked Setting	Set and lock <a href="#">settings</a> for best performance across all users.	5.0
	<a href="#">Send via Graph</a>	Allows sending via Graph for much simpler configuration.	5.2
<b>List Expansion</b>	<a href="#">EWS Caching</a>	Caches the list membership and reuses it for 24 hours	4.8
	Fallback Expansion	Provides <a href="#">list expansion backup</a> if your primary method fails	4.954
	Hidden Membership Warning	PoliteMail will return a <a href="#">warning</a> if the distribution list membership is empty or has hidden members	4.956
<b>Email Tools</b>	<a href="#">Scheduled Sends</a>	Schedule a tracked message to be sent at a future date and time or by recipient's timezone	4.8
	<a href="#">Power Automate</a>	Automate some of your email processes based on PoliteMail interaction data	4.8
	<a href="#">Appointment Tracking</a>	Use PoliteMail tracking tools when scheduling meetings in Outlook's Calendar	4.9
	<a href="#">Open Visibility</a>	Allow recipients to see interaction data in near real-time, including page views, read time, mobile opens and clicks	4.9
	<a href="#">Social Advocacy</a>	Add Facebook, Twitter, and LinkedIn icons so recipients can share stories to their own personal social media sites. These links can be tracked	4.9

Category	Feature	Description	Version
	Subscription Lists	Gives recipients the ability to remove themselves from subscription lists and manage which subscription lists they are on	4.9
	PoliteMail Builder	Improved drag and drop template builder with more layout options and editing controls	4.91
	Message Tagging	Assign tags to messages to help with organization	4.91
	Direct Replies To	Specify a different inbox for bounces to be returned to.	4.95
	Customize Preheader Text	Add up to 3 lines of text to be displayed in the recipient's Outlook Reader Pane on tracked PoliteMail messages.	4.951
	Ai/B Testing	Allows users to test subject line alternatives and automatically suggest wording to gain the highest attention	5.0
	Buttons	Add call to action buttons to templates	5.0
	Create Video Thumbnail/Play Button Overlay	Adds a play button graphic to images	5.0
	O365 Measurement	Non-image based open measurement to effectively capture accurate Mac desktop and iPhone open data.	5.0
	Save as Draft	A Save As button in the Builder allows you to save a message as a Draft or as a Template.	5.05
	Multi-Compare	Compare multiple Metrics reports in a side-by-side comparison.	5.05
	New PoliteMail Builder	A new PoliteMail Builder interface that is more intuitive and with more tools for creating Templates in PoliteMail Online.	5.10
	Message Expiration	Set messages to no longer be viewable after a specific date or time.	5.15
	Subject Suggester	Replaces Ai/B Testing for faster results.	5.15
	From Management	Manage all From permissions easily.	5.15

Category	Feature	Description	Version
<b>Content &amp; User Management</b>	Exporting Data Grids	Export any data grid to Excel	4.8
	Bulk Update	Allows you to choose multiple columns within a List and edit them to one common value	4.8
	Migrate User	Migrate a user's data to another user instead of deleting it	4.9
	Delete Contacts	Delete contacts from a single mailing list instead of removing them from all lists	4.9
	Enhanced Filtering	Filter results by date range	4.91
	Unlimited Custom Fields	Unlimited custom fields for more targeted personalization, as well as support for HTML code	4.94
	Filtered Lists 2.0	Upgraded Filtered Lists with greater filtering capabilities	5.10
