

When configuring Microsoft Graph and SSO, do we need to enable public client flows?

Last Modified on 12/05/2022 11:11 am EST

Applies To: PoliteMail Desktop PoliteMail Online PoliteMail O365

Version: 4.94 4.97 5.0+

Implicit Grants

PoliteMail uses authorization code flow, so Implicit grants or flows can be turned OFF and PoliteMail will function normally. Implicit flows were historically on by default but have been deprecated by Microsoft because they relied on third-party cookies.

Advanced settings

Allow public client flows ⓘ

Enable the following mobile and desktop flows:

Yes No

- App collects plaintext password (Resource Owner Password Credential Flow) [Learn more](#)
- No keyboard (Device Code Flow) [Learn more](#)
- SSO for domain-joined Windows (Windows Integrated Auth Flow) [Learn more](#)
