

How can I send a "Do Not Reply" broadcast email using PoliteMail?

Last Modified on 07/25/2024 4:06 pm EDT

The best way to suppress all replies to a message is to send from a nonexistent email address, such as do-not-reply@yourcompany.com.

- You will need to add this email address to the [From Management](#) window (if you're using an older version of PoliteMail, you'll need to be given From permissions by your administrator).
- Finally, be sure to select 'Suppress Auto-Replies' before sending the measured message, and you should be all set.
 - Suppress Auto Replies is not currently available in PoliteMail for M365.
