

How do I install Commylytics?

Last Modified on 09/13/2024 5:13 pm EDT

If your organization has made Commylytics available to you, just click on the 'Apps' button on the left side of the Teams window.

1. Apps already approved by your organization will display first; click on the 'Add' button next to Commylytics and you're all set.
2. You can also search for Commylytics from the search bar in the upper left corner of the Teams window.

If you get a message that the application needs permissions to install, your organization may not have approved Commylytics yet; contact your IT deployment team.

The screenshot displays the Microsoft Teams 'Apps' interface. On the left, there is a navigation pane with 'Apps' selected. The main area features a search bar at the top, followed by a banner for 'Try our top trending apps' with a 'See more' button. Below this, there are several sections of app cards:

- Built for your org:** A card for 'Commylytics' by PoliteMail with an 'Open' button.
- Apps we love:** Three cards: 'LEAD.Bot' (LEAD Tech Inc., 5.0 rating), 'Remind' (Moonbear Ventures LLC, 4.6 rating), and 'Geekbot: Workflows &...' (Geekbot Ltd, 5.0 rating).
- Promote wellness:** Four cards: 'Pleaz' (Pleaz ApS, 5.0 rating), 'Teamspective' (Teamspective Oy, 5.0 rating), 'Wrenly AI' (Incognito Apps Inc., 5.0 rating), and 'LEAD.Bot' (LEAD Tech Inc., 5.0 rating).
- Additional cards:** 'Geekbot Workflows &...' (5.0 rating) and 'Breakthru' (Breakthru Immersive, INC, 4.7 rating).

Each card includes an 'Add' button and a star rating. The interface also shows a sidebar with various navigation options like 'Activity', 'Chat', 'Teams', 'Calendar', 'Calls', and 'OneDrive'.
