How do I get PoliteMail Online and PoliteMail365?
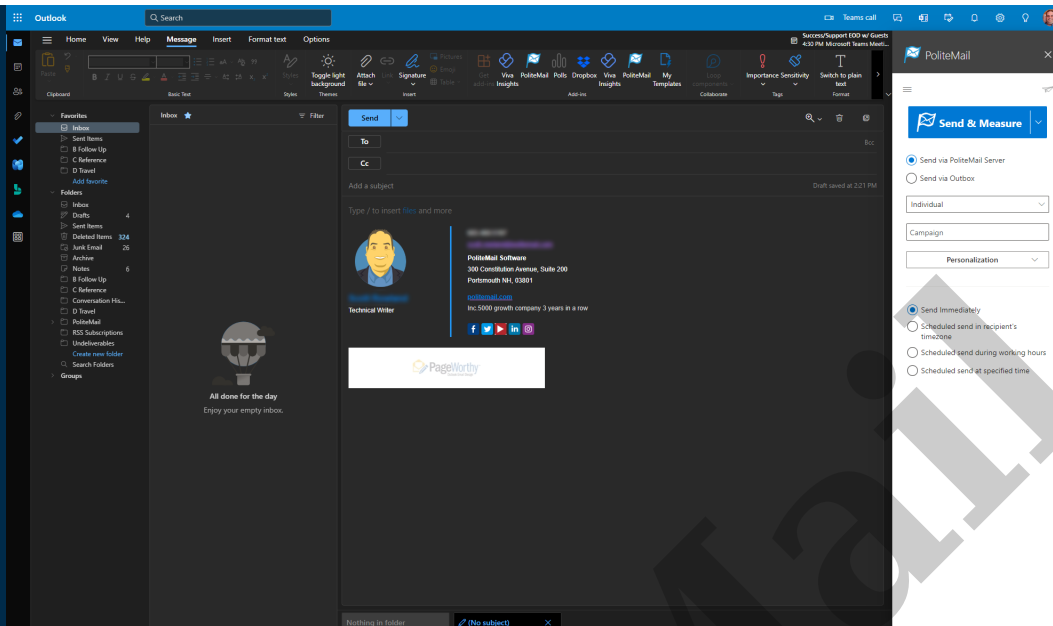

PoliteMail Online (PMO)
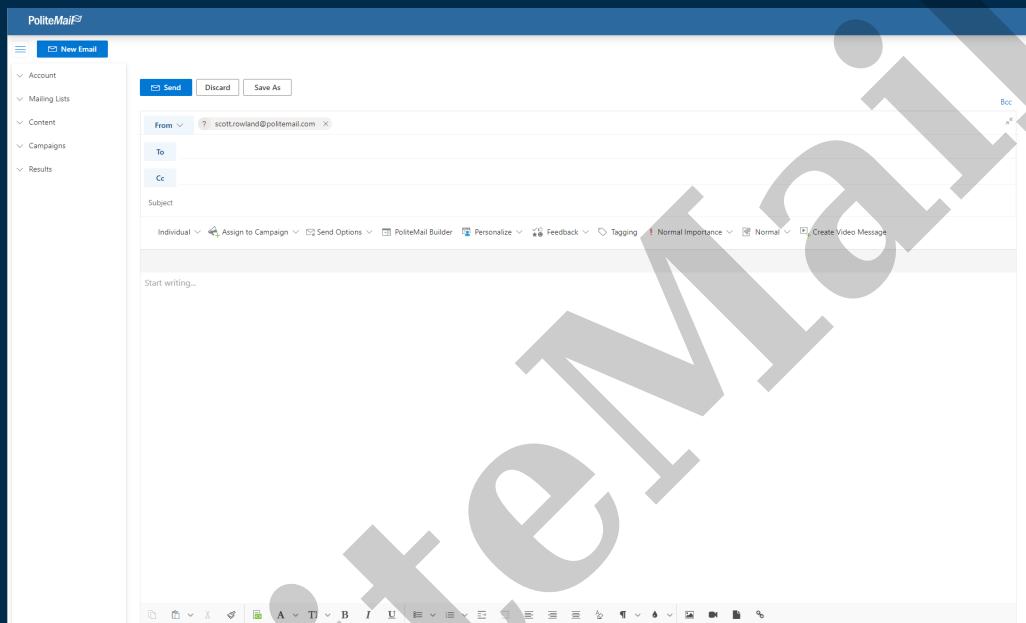

1. All you need to do is enter your PoliteMail server name in your browser! Your server name is what you enter when logging into PoliteMail, such as https://pmqareact2.pmail5.com/.

2. From there a window will appear for you to enter your username and password like normal.

PoliteMail for Microsoft 365

1. Your organization must be set up to use PoliteMail for M365. PoliteMail will work with your IT team to create a manifest to deploy PoliteMail. Ask your Administrator to contact us if interested!

2. PoliteMail for M365 is available only for version 5.0 or later.

3. Your Exchange Administrator will need to approve adding PoliteMail365 to your Office365 environment. Once deployed, PoliteMail will be integrated into Outlook 365 any time you log in.
