PoliteMail Features by Version

Category	Feature	Description	Version
System and Security	Single Sign-On	Gain automatic PoliteMail user account management based on your company's own Office365 identity and active directory security groups.	4.91
	Microsoft Graph Support	PoliteMail utilizes Microsoft Graph, configured to read-only least privilege principals to get distribution list membership, working hours and time zone location data. This data is used for replication of email broadcasts and scheduling email delivery to recipients during their working hours by time zone	4.94
	SAML2 with Okta	SAML2 Support with Okta	4.957
	Webview2	Webview2 is supported with PoliteMail	4.958
	Unified Interface	New modern Office interface for both desktop and online.	5.0
	OAuth support	OAuth is supported for secure Smart Attachments and Images.	5.05
Preferences	Override Word Count	Manually override the word count for messages composed in multiple languages for more accurate metrics	4.91
	Shared Mailbox Scan	Automatically scan for any shared mailboxes in Outlook and add them to preferences for capturing replies	4.96
	Allowed FROM address required	If the company requires approved senders for emails, PoliteMail Admins can enter and approve the sending address.	5.0
	Delete Preflight Messages	Automatically delete preflight test messages after a predetermined time.	5.0
	Global and locked Setting	Set and lock settings for best performance across all users.	5.0
	Send via Graph	Allows sending via Graph for much simpler configuration.	5.2

Category	Feature	Description	Version
List Expansion	EWS Caching	Caches the list membership and reuses it for 24 hours	4.8
	Fallback Expansion	Provides a list expansion backup if your primary method fails	4.954
	Hidden Membership Warning	PoliteMail will return a warning if the distribution list membership is empty or has hidden members	4.956
	Two-Way Entra Sync	PoliteMail offers the ability to sync lists back to Entra ID.	5.35
Email Tools	Scheduled Sends	Schedule a tracked message to be sent at a future date and time or by recipient's timezone	4.8
	Power Automate	Automate some of your email processes based on PoliteMail interaction data	4.8
	Appointment Tracking	Use PoliteMail tracking tools when scheduling meetings in Outlook's Calendar	4.9
	Open Visibility	Allow recipients to see interaction data in near real-time, including page views, read time, mobile opens and clicks	4.9
	Social Advocacy	Add Facebook, Twitter, and LinkedIn icons so recipients can share stories to their own personal social media sites. These links can be tracked	4.9
	Subscription Lists	Gives recipients the ability to remove themselves from subscription lists and manage which subscription lists they are on	4.9
	PoliteMail Builder	Improved drag and drop template builder with more layout options and editing controls	4.91
	Message Tagging	Assign tags to messages to help with organization	4.91
	Direct Replies To	Specify a different inbox for bounces to be returned to.	4.95
	Customize Preheader Text	Add up to 3 lines of text to be displayed in the recipient's Outlook Reader Pane on tracked PoliteMail messages.	4.951
	Ai/B Testing	Allows users to test subject line alternatives and automatically suggest wording to gain the highest attention	5.0
	Buttons	Add call to action buttons to templates	5.0
	Create Video Thumbnail/Play Button Overlay	Adds a play button graphic to images	5.0

Category	Feature	Description	Version
	O365 Measurement	Non-image based open measurement to effectively capture accurate Mac desktop and iPhone open data.	5.0
