Data Processing and Storage by PoliteMail

Download a PDF of this information

The data processed and stored by PoliteMail varies depending on the measured message. The table below provides a summary.

used to send a

Required fields are processed and stored as a result of PoliteMail sending with standard application permissions and archive services enabled.

PoliteMail User/Sender Data

DATA ELEMENT	REQUIRED	STORED	PROCESSING	STORAGE ENCRYPTION
User Email Address			JSC Autrientication	
User Role	Yes	Yes	Data Access	AES256
User Password	Optional	Os (N)	User Authentication	
User Title	Optional		User Identity	AES256
User Address	Optiona			
User Phone	Optional		User notifications	AES256
User Group	Ordonal			
User Region	Optional		User Identity, user segmentation	AES256

Mailing List & Recipient Data

DATA ELEMENT	REQUIRED	STORED	PROCESSING	STORAGE ENCRYPTION
Recipient Email Address	Yes	Yes	Email addressing, list membership, subscription management, reporting segmentation	AES256
Recipient Name (Display Name)	Yes	Yes	Email addressing/personalization, list membership	AES256
Recipient Time Zone				
Recipient Default Language	Yes	Yes	*Browser Setting translation	AES256
Recipient Working Hours	Yes	Yes	Includes working days and start/stop times	AES256

DATA ELEMENT	REQUIRED	STORED	PROCESSING	STORAGE ENCRYPTION
Mailbox Type	Yes	Yes	Gathered by default with MS Graph but not used AES2	
Department				AES256
Division	Optional		List management, reporting segmentation	AES256
Campus			List management, reporting segmentati	AES256
Building	Optional		List management, reporting segmentation	AES256
Manager	Optional		List managen (ing	AES256
Other HR Attributes If/As Required by Customer	Optional		List management, reporting segmentation	AES256

Message Data

DATA ELEMENT	REQUIRED	STORED	PROCESSING	STORAGE ENCRYPTION
Email Message	Yes	Optional a Very on draft in scheduled sen.	Composing and sending email message	AES256
Sent Time/Date	Yes	Required temporarily for send processing and scheduled sends Optional when PoliteMail Online Sent Items folder is enabled, or when users elect to use the "save as draft" functionality	Reporting & analysis	SHA256
Time Zone	Yes	Yes	List management, reporting segmentation	AES256
То:	Yes	Yes	Reporting & analysis	SHA256
From:				AES256
Subject:	Yes	Yes	Reporting & analysis	AES256
URL's	Yes	Yes	Click reporting	AES256
Word Count	Yes	Yes	Reporting	AES256
mage Count	Yes	Yes	Reporting	AES256

DATA ELEMENT	REQUIRED	STORED	PROCESSING	STORAGE ENCRYPTION
Image Sizes				
(Pixel	Yes	Yes	Reporting	AES256
Dimensions)				

Email Interaction Data

MESSAGE DATA	REQUIRED	STORED	PROCESSING	STORAGE ENCRYPTION
Device OS			Reporting Analytic	A/3256
Browser Ver	Yes	Yes	Reporting Analytics	AES256
Date & Time	Yes	Yes	P orting half	AES256
Message ID	Yes	Yes	Reporting Analytics	SHA256
Recipient ID			in Vallace	
User Agent	Yes	Partial	Reporting Analytics	AES256
IP		Optional via proxy	Reporting Analytics	
Geolocation	Yes	Yes	IP reverse lookup to ascertain region (state/province)	SHA256
URL Clicked	Yes	Ye	Reporting Analytics	AES256
Link ID	Yes (Reverse IP lookup) to state/province level	Yes	Reporting Analytics	AES256
View Time	100
