

Use Translator for Outlook with PoliteMail

Last Modified on 06/02/2026 10:25 am EDT

PoliteMail works with the Translator for Outlook add-in to convert PoliteMail messages into different languages. You can download Translator for free from the Microsoft store by

Once the add-in has been installed, you will see a button in your Outlook ribbon.

Click on the message in your inbox you want to translate, and then click the Translate Message button. A drop-down menu will appear of available languages. Choose the language and the message will be translated.
