Getting Connected to the PoliteMail API

Last Modified on 10/20/2025 11:54 am EDT

Note that the ODATA functionality also enables you to connect to PoliteMail data using Excel PowerView or PowerBI.

Using your PoliteMail client create a service account go to **PoliteMail > Settings >Users**.

- If you do not have access to create a PoliteMail User, ask your PoliteMail Admin.

Version 5.x:

To connect to your PoliteMail server via ODATA use:

```
https:// (Insert PoliteMail Server Name) /api/odata
```

Service metadata can be viewed at:

```
https:// (Insert PoliteMail Server Name) /api/odata/$metadata
```

Version 4.x:

To connect to your PoliteMail server via ODATA use:

```
https:// (Insert PoliteMail Server Name) /ssv3/odata
```

Service metadata can be viewed at:

```
https:// (Insert PoliteMail Server Name) /ssv3/odata/$metadata
```
