

API / SurveyQuestion

Last Modified on 10/20/2025 10:54 am EDT

Entity Description:

SurveyQuestion is a preformatted entity that can be inserted into an email message to solicit a response to a question from a recipient (e.g. Yes or No, Like or Dislike, Select 1-2 or 3, etc...). Results will be found on the bottom of the metrics reports page. Multiple survey answers will appear on the same metrics page.
