Use Send Progress Notifications for Large Sends

Last Modified on 10/01/2026 4:25 pm EDT

Applies To: New PoliteMail Legacy PoliteMail

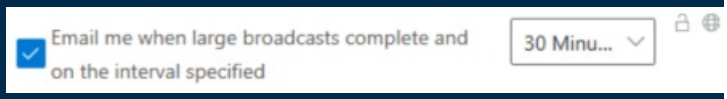

Version: 4.9+ 5.0+

> Send Progress Notification functionality has been removed starting in version 5.30 of PoliteMail.

Send Progress Notifications is a configurable service within PoliteMail that notifies a user on the progress of tracked sends. The setting will be applied to very large sends and can be configured to notify the user every 15, 30, 60, or 120 minutes.

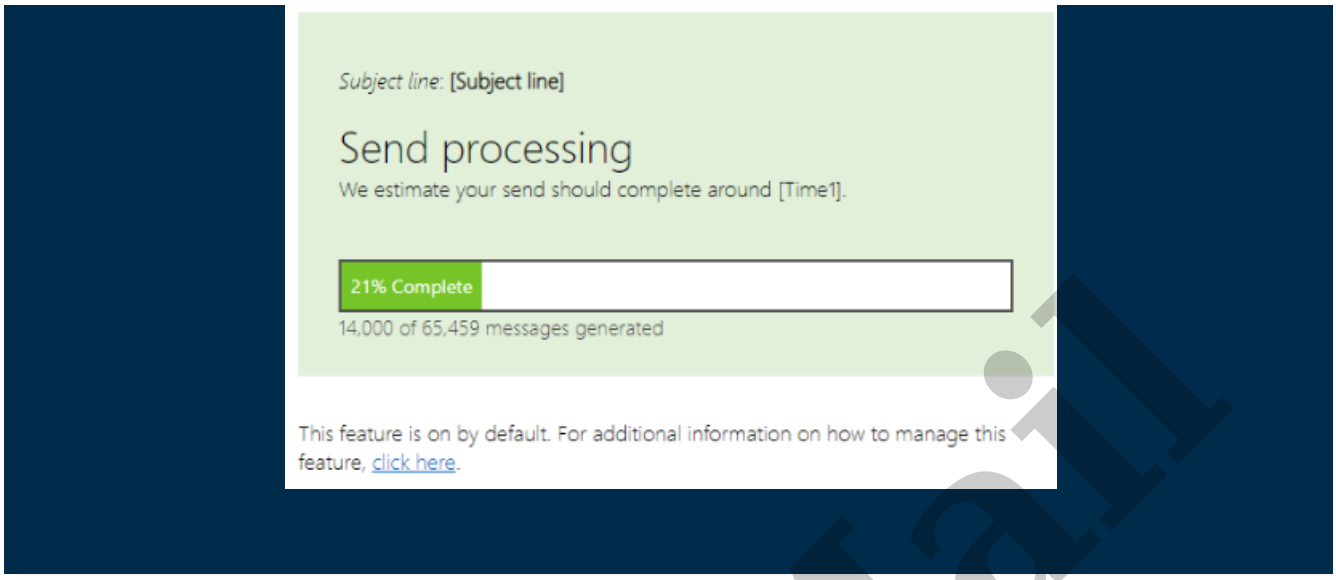

Enabling Send Progress Notifications

1. Navigate to:
   - **Version 5.x:** **PoliteMail > Account > Settings > User Preferences > Sending**
   - **Version 4.x:** Navigate to **Settings > Preferences > Enable Send Progress Notifications**.
2. Scroll down to the setting. Use the pull-down menu to set the time intervals. Once enabled, it will apply to all your tracked messages.

Notifications will appear directly in your inbox. You will receive notifications for send starting, send progress, and send complete.
