What does the Sync button do when viewing my Lists?

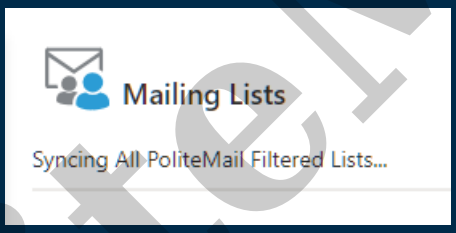

Last Modified on 10/01/2026 4:25 pm EDT

Applies To: New PoliteMail Legacy PoliteMail

Version: 4.9+ 5.0+

Sync If a custom field value in a Filtered List is changed, it might not be reflected in the Filtered List membership right away. To address this, you can click the Sync button to update the counts on demand.

Once clicked, PoliteMail will display that your PoliteMail Filtered Lists are being synchronized. Once complete, your latest updates will be applied and you're all set!
