What's changed in the new PoliteMail Builder?

Last Modified on 10/20/2025 2:10 pm EDT

The PoliteMail Builder, available in version 5.10 and later, has been redesigned from the ground up to be more intuitive, convenient, and powerful than ever. Refer to this article for more details!

- More visual, organized user interface!
- Organize your content and layouts with Folders!
- More intuitive tools to customize Templates the way you want.
- Access saved Templates and Ai/B testing directly from the Builder pane.
- When viewing saved Templates, there's an option to preview the message on a mobile device!

The hamburger menu ≡ has been replaced with a more visual layout. Most of your content items can now be found under **Build a Template > Content**.

Build Templates here under 'Rows'.

Your currently used Brand Theme is shown; click here to create your own or use another.

Your most recently used Templates show here. Click the card to view them all.

Folders are a great new way to organize all your content and Templates!
