Version:  4.9  5.0  5.1+

Deleting Content Items

This procedure applies to deleting Images, Smart Attachments, Templates, Paragraphs, or Links.

Go to **POLITEMAIL**> **Content** and choose which content you wish to delete.

Once the data grid opens, select the Content Item you wish to delete, and click the 'Delete' button (the 'X' button in [Version 4.9x](#)).

Keep in mind you will not be able to delete certain content if your [Permissions](#) does not allow it.
