Version: 4.9+ 5.0+

Reporting in PoliteMail

You can generate metric reports based on:

- Individual messages
- Campaigns
- Mailing lists
- By Sender
- By From Address
- Account-wide (Admins only)

If you'd like to create a custom metrics report, you can select individual messages, create a Campaign from them, and generate a metrics report. You can also choose to export singular results or select multiple messages for exporting.
