

Log Into PoliteMail

Last Modified on 04/17/2026 4:58 pm EDT

Once your server has been created by PoliteMail, you will receive an email with the subject line "Welcome to PoliteMail." Within this message will be your PoliteMail Trial email address and temporary password. Click on the Log In To PoliteMail button.

You will then be prompted to enter in your email and password.

Once the log in is successful you will be brought to your Account page.

From here, you can set your preferences and start exploring the software. However, you will not be able to send any emails until your M365 Administrator sets up your Graph sending permissions.

Please continue to the next article to learn more about Graph permissions.
