

Links not working in Preview Mode

Last Modified on 10/30/2026 3:12 pm EDT

Applies To: ☒ New PoliteMail ☐ Legacy PoliteMail

Version: ☐ 5.0 ☐ 5.1 ☐ 5.2 ☒ 5.3+

As a security measure, Beefree disables links when being viewed in a preview/sandbox. This prevents spam or phishing attacks from appearing in the Editor when previewing.

As a workaround, you can right-click on any link and select 'Open link in new tab' to verify the link is working.
