Undo, Redo, and History in Beefree

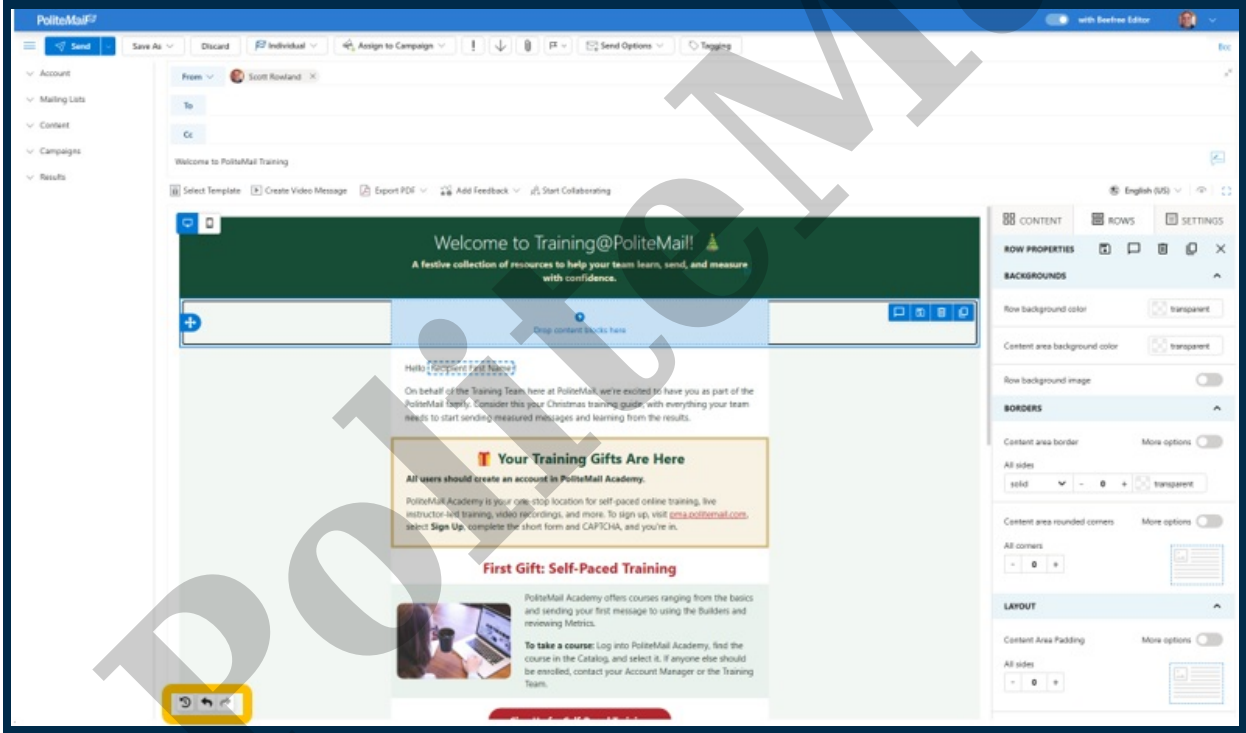

Last Modified on 11/05/2026 8:06 pm EST

Applies To: ■ New PoliteMail ☐ Legacy PoliteMail

Version: ☐ 5.0 ☐ 5.1 ☐ 5.2 ■ 5.3+

Beefree's Undo, Redo, and History tools let you move backward or forward through your edits. The History timeline displays your 15 most recent changes, including what changed and when. You can even display the history of all your changes from when you first opened the message.

Please note that the 15-edit history is session-based, so it resets when the builder is reloaded.
